

# Stand up to Trump & Pence's threats of 'regime change' in Venezuela

Venezuela  
Solidarity  
Campaign

**We, the undersigned, condemn the open support of the US administration for 'regime change' in Venezuela, which is illegal under international law.**

Alongside harsh sanctions which have hit the people of Venezuela hard, comments from Trump himself, VP Pence, and Secretary of State Mike Pompeo amongst others have included **threats of military action**, threatened to put Venezuela on the state sponsors of terrorism list and invoked the possibility of a right-wing military coup.

**We stand for peace and dialogue, not Trump's war and 'regime change' agenda.**
